HELP PROTECT YOUR ACCOUNT FROM PHISHING SCAMS

Phishing occurs when scammers send an email or text message that looks like it came from a legitimate organization and asks you to provide your password or other sensitive information.

To protect your account from phishing attempts:

- ◆ Avoid opening messages from unknown senders.
- ◆ Investigate requests that urge you to take immediate action by sending sensitive information.
- ◆ Don't open unexpected attachments, especially those with unusual file extensions.
- ◆ Review links in messages by hovering over the link to confirm the actual URL matches the one displayed in the message.

MEDICARE EDUCATION

One on One Discussions
with Ray Sweetman, UnitedHealthcare Agent

- ◆ *Questions on Medicare?*
- ◆ *Do you have the right Medicare Plan?*
- ◆ *Turning 65 or new to Medicare?*
